Further, NTR Trust sponsored free education of 3,200 children across the states of Andhra Pradesh and Telangana. NTR Trust attaches immense importance to Education. Our journey started with establishment of Model School since 2005 and provided free education to more than 1200 poor orphan students and transformed to productive and self reliant.

Our vision under Education, is to give free quality education to 5000 Orphan children in any given academic year through NTR Model Schools across Telangana and Andhra Pradesh by 2022. Towards this objective we launched “Mentor the Hero” program. We invite you to join hands with NTR Trust to champion the noble cause of providing free holistic education to thousands of orphan children. **We are looking for Heroes who can Mentor Heroes, this is the core objective of the Mentor the Hero Programme.** Mentor the Hero Programme will help ignite the minds of young orphan children through their crucial years of growth.

Your support is crucial to achieve this vision. As a Mentor you can help transform an orphan child into a responsible citizen. It is a great opportunity to change the life trajectory of an orphan child forever. We are looking for Mentors, who in addition to sponsoring the child’s education are willing to develop a bond that lasts a lifetime. A Mentor who can instil values, skills and prepare the Orphan to excel and contribute back to the society.

Set-up in the sprawling campus of 12 acres the aim of NTR Model School is to provide free quality residential education to poor and Orphan children. So far we have successfully educated more than 1,200 poor and Orphan children. Starting this year we have more than doubled our commitment to freely educate the Orphan children by starting two new NTR Model Schools - one in Warangal and the other in Challapalli. **We aim to educate 5,000 orphan children 2022 through our NTR Model Schools. - To train the teachers on latest teaching methodologies so that they can become confident, responsible, reflective, innovative and engage with poor, needy and orphan children effectively.
- Better education using worthier technology to the children to make them digitally literate for the betterment of the larger group of the society .

Classrooms :- The well ventilated and spacious classrooms are so designed that the children would love to come and teachers feel happy to teach in. The computers lab will allow the curriculum to be supported fully with practical learning . These will benefit the entire school.
